Managed IT Services

Which one of our customers sounds like you?

"If our computers/server go down, we're in BIG Trouble..."

Companies who depend on technology to function need more than support. They need someone to actively monitor and manage things.

With a Managed Service Agreement, we will know a problem is coming before it happens. Our unique process watches for and alerts us to issues so we can fix them before they shut you down.

Managed Service Agreements also have unlimited remote support, allotted hours of on-site support, and secure cloud backup included, as well as their own dedicated phone number.

If you need support,
Please call 402-858-0911
and someone will assist you.

"We don't currently have any problems, but when we do, I don't want to deal with it."

You have a job to do, and it's probably not IT. Even if it is, you probably don't have the time or energy to do it anymore.

If that is the case, our On-Demand Remote Support option might be a good fit. It's \$8/month per system (plus labor) and gives you access to remote tech support and extended hours. Plus, you'll have a dedicated phone number to call.

"We're pretty tech savvy. We'll just call you when we need something."

Whether you are an IT Administrator at a large organization or are your non-profit has one or two employees, there are many ways we can support you.

Sirkdot offers anti-virus software, secure file-sharing, and secure cloud backup to help protect you from viruses, breaches, and the messes that come with them.

We also offer tech support on an as-needed basis.

See Page 2 for a Full Listing of Sirkdots products and services.

sirkdot

Founded in 2010, Sirkdot specializes in providing technology solutions for organizations with less than 50 computers.

Our services can be separated into four main categories.

Monthly IT Support Plans

The Managed Service Agreement (MSA)

MSAs include the following:

Unlimited Remote Support;

Up to 10 hours / month of on-site support;

Weekly automatic system cleaning & optimization;

Up to 100 GB of encrypted cloud backup;

24/7 Remote Monitoring;

and Automatic Updates.

On-Demand Remote Support

For non-profits that only want to pay for support when they need it, we offer a low-cost, no commitment, on-demand option.

Managed Cloud Solutions

Cloud Backup

Our cloud backup solution is 256-bit AES encrypted making it ideal for clients with security on their mind.

File Sharing

Sync files to all of your devices & share them securely without recipients needing their own account.

Email

We offer a range of email solutions, from basic webmail to anti-phishing & encryption software.

Anti-Virus Software

We are an exclusive partner with F-Secure, an anti-virus software consistently rated best business protection by third-party testers.

VoIP Phone Systems

Our cloud hosted VoIP solution includes **40+ state-of-the-art features.**

Make changes quickly & easily.

Transferring between offices is as easy as 123#.

A mobile app allows you to call from the office no matter where you are.

Best of all, customers never get a busy signal.

Additional Services

Here are some of our other services:

Custom Computers & Servers;

System Cleaning & Optimization;
